Nomination of Mr. Brent Jones to Honorary Membership of FIG

Dear President, Dear Council Members,

As a Member Association of FIG the National Society of Professional Surveyors (NSPS) would like to nominate its long-time member and NSPS Fellow Brent Jones to the position of Honorary Member of FIG.

FIG Statutes (para 3.1.7 §) define an Honorary Member as *an individual who has materially assisted the development and promotion of the surveying profession at the international level*. We believe that Brent Jones has fulfilled this requirement excellently and professionally over a period of more than 16 years of involvement with FIG and in other global activities.

Brent has been active in FIG both as an NSPS Delegate to FIG and FIG Platinum Corporate Member Esri's representative to FIG. Brent's experiences include:

2006 – present
FIG Commission 7 Cadastre and Land Management – Delegate

2005 – 2012
Esri – Global Manager, Cadastre/Land Records

2012 – present
Esri – Global Industry Manager, Survey/Cadastre/AEC

2015 – present
United Nations UN-GE-LAM - Member
United Nations Group of Experts on Land Administration and Management under the UNGGIM - UN Committee of Experts on Global Information Management.

October 2021 – October 2022

URISA International (Urban and Regional Information Association) – President

January 2007 – January 2008

GITA (Geospatial Information and Technology Association) – President

Brent has been extensively involved in FIG since 2006 most especially in FIG Commission 7 and the FIG Young Surveyors Network. He has presented many papers and presentations over the years important to both FIG and the global surveying profession. Additionally, Brent has been proactive to ensure Esri's generous support of FIG and FIG activities as an FIG Platinum Corporate Member.

Brent is highly regarded with an international reputation and network. He is a committed and hard worker and a positive ambassador of FIG and the global surveying profession.

NSPS believes that Brent's contributions to the profession on the national as well as the international level are extensive and considerable. In accordance with the FIG's Statutes (3.1.7 §), NSPS strongly supports Brent Jones' nomination and believe that he is a worthwhile candidate and deserves the honorary membership from FIG.

NSPS kindly requests that the FIG Council to consider such a nomination.

Thank you.

Best regards,

John D Hohol

Liaison for International Federation of Surveyors (FIG)

NSPS Head of Delegation to FIG
